

3/4 - 4 FT X 8 FT - MDO 2S PANEL - MDO PLYWOOD

SKU: MDO2000

Introducing the versatile and high-performing MDO 2S Panel by VINAWOOD, specifically designed to cater to your diverse formwork application needs. This exceptional plywood panel combines the benefits of medium density overlay (MDO) with top-quality materials to deliver a premium solution for your construction projects.

At the heart of the MDO 2S Panel lies a robust core made from AA Grade Acacia, Eucalyptus, and Hevea wood species. This high-quality core ensures outstanding strength, stability, and durability for all your formwork applications. With a density of 600 kg/m³ and a bonding strength of 1 Mpa, this panel is designed to withstand the demands of various construction environments.

The MDO 2S Panel stands out due to its double-sided MDO coating, providing a smooth, consistent surface on both sides of the panel. This unique feature allows for increased versatility, as the panel can be used on either side, optimizing its lifespan and performance. The MDO coating also ensures a matte concrete surface without leaving any grain marks, resulting in a professional and aesthetically pleasing finish.

Available in thickness options ranging from 12mm to 21mm and dimensions of 2440x1220mm or 2500x1250mm, the MDO 2S Panel can be customized to meet the specific requirements of your project. Its moisture content of 12% guarantees dimensional stability and resistance to warping, making it a reliable choice for the ever-changing conditions of a construction site.

With a maximum repetition of up to 25 times, the MDO 2S Panel offers an efficient and cost-effective solution for your formwork applications. Its exceptional durability, versatility, and performance make it an ideal choice for contractors and builders seeking a high-quality plywood panel that delivers outstanding results time and time again.

In conclusion, the MDO 2S Panel by VINAWOOD is the ultimate choice for those who require a top-performing, double-sided MDO coated plywood panel for their formwork applications. Invest in this innovative panel and experience the benefits of enhanced durability, versatility, and aesthetics for your construction projects.
